

CELSI

...the future of fire

PREMIUM ELECTRIC FIRES COLLECTION 2020

WELCOME TO CELSI

At Celsi we know how important it is to create a stylish and relaxing living environment. That's why we've developed this collection of premium electric fires.

I believe our success stems from a combination of innovative design, investment in technology and the highest quality manufacturing standards. As a result all Celsi fires carry a 2 or 5 year guarantee* to reflect my belief in their quality and durability.

This brochure has been designed to make the purchase of your new Celsi heater as simple as possible. I hope you find it both informative and inspiring.

Michael Ruess

ADVANCED FEATURES

THERMOSTATIC HEATING

Pre-set your heat comfort level for automatic temperature control via the handset.

TIMER FUNCTION

Programmable 7-day heating timer function with hourly on/off control. Up to 8 hrs sleep timer facility available on some models.

LED EFFICIENCY

From controllable flame picture and fuel bed brightness, to colour changing mood lighting, our onboard LED's ensure effective energy saving low power consumption.

ISOFLAME

Independent flame effect capable of displaying in isolation when no heat is required from the appliance.

FLAME FUSION

Captivating Indigo blue flame feature creates a colourful impression by fusing soft and natural yellow flames with an attractive flare of blue flame intensity.

COLOUR CYCLE

Fix your favourite or go dynamic as you cycle through an array of impressive colour changing fuel bed options.

MOOD LIGHTS

Designed to enhance your experience with an ambient stream of colour rich soft LED lighting. Select from a choice of colours to compliment both warm and cool home interiors, or simply to suit your mood.

ECODESIGN COMPLIANT

Integrated design features for optimal energy saving performance and assurance.

We are confident you are getting a product that is built to last. That's why we offer a 2 Year Guarantee across our electric fires range, with an extended guarantee to 5* years on selected Celsi models.

There is no more versatile fuel for home heating than electricity

With a range that includes beautifully crafted electric suites, feature fireplace wall models, classically styled hearth inset fires, and contemporary stove designs, there is a Celsi fire to suit any home.

Best of all you are free to enjoy any of these fantastic heating appliances in any room in your home simply by plugging into the nearest mains socket.

To learn more about the features and benefits of owning a Celsi electric fire please sit back and take a few moments to look through our Advanced Features section, along with our technology introduction to assist you in choosing your perfect Celsi fire experience.

ELECTRIFLAME®VR & ELECTRISTOVE®VR

Virtual Reality – Advanced Flame Projection

View our latest range of Electriflame VR ‘3-Sided Glass Fires and Suites’ for superior flame aesthetics. This latest patented design raises the appearance and functionality of electric fires to a new level.

Conventional electric fires feature flames on a flat screen at the rear of the product, with E-VR Flame Projection Technology we create the flame illusion to the front, the centre, and the rear of the fuel bed. This creates a totally natural log fire effect. This range has a variety of products including free-standing Suites, wall mounted fires, hearth inset fires, and outset Stoves.

PURAFLAME®

Ultra High Technology Experience

Combining style with innovation, Puraflame technology provides a simple to use convincing fire experience, with exceptional feature rich functionality.

Using LCD technology Puraflame is the only electric fire to give you a choice of three flame pictures plus the astonishing look and sound of a real fire. In addition to contemporary glass ‘hang-on-the-wall’ models this range includes the Purastove, a free-standing steel bodied electric stove with all the technology to create a highly realistic fire effect.

PURAFLAME® – FUNCTIONALITY AT YOUR FINGERTIPS

THE MOST FUNCTIONAL ELECTRIC FIRES ON THE MARKET

MULTI FLAME PICTURES

Celsi has patented some of the most advanced technologies to create the most sophisticated and realistic fire effect in the world. Every Puraflame fire has been designed to give the appearance of outstanding depth along with an amazing 3D effect, and comes with a selection of real fire effects to choose from.

SMOULDERING LOG

BLAZING LOG

FLAMING COAL

Flame pictures are extremely quiet running when operated in isolation and no heat is required from the appliance.

FLAME SPEED

You may prefer a slow and calming flame or a quick and spellbinding flicker. With a choice of 5 flame speeds you can speed up or slow down each of the real fire movies.

FIRE VOLUME

There's nothing more soothing than the authentic crackle of a real log fire. Lower the volume for a more subtle result or crank it up for full effect. There is also a mute button to silence the sound effect when you need to. When on 'flame only' setting, Puraflame is the quietest fire on the market.

MOOD LIGHTS

The mood lighting feature creates a calming ambience around the heater. A choice of 3 LED colours: white, amber and blue, lets you highlight the fire to suit your mood.

BLUE

AMBER

WHITE

OFF

BRIGHTNESS

Natural daylight or artificial lamplight can have a big impact on how you see the flame picture. We have included this brightness function to allow you the option to increase or dim the LCD screen brightness to suit you and your environment.

SLEEP TIMER

An extremely practical function. The sleep timer can be used to automatically turn the heater to standby mode after a predetermined amount of time. Great if you want to doze off and not worry about turning the fire off once you have fallen asleep. The timer can be set for up to a maximum of 4 hours in 30 minute intervals and once this time has elapsed the appliance will automatically go into standby.

THERMOSTATIC HEATING

The fan heater can be operated in manual or automatic mode. When in manual mode you can use the heat button on the remote handset to select low heat, high heat or heat off. To eliminate the hassle of constantly manually adjusting the heat output, every Puraflame fire features a digitally controlled thermostat. Use the temperature function to turn on automatic heat mode. You can pre-select your comfort level and the heater will automatically adjust between high heat and off, maintaining the selected room temperature level.

DISCLAIMER

Our policy is one of constant development and improvement. We therefore reserve the right to revise designs and specifications of our products without formal notice, patents pending. We always recommend our products be viewed in an approved showroom before purchase. Whilst we have taken every care in the preparation of this brochure it is not intended to replace the installation manual which provides more detailed information.

Photography is for illustration purposes only and although every effort has been made to ensure accurate reproduction of typical installations and flame pictures they may vary according to fire model and flue types.

We accept no liability for any loss or damage arising directly or indirectly from the use of this brochure.

We recommend that all our fires are used in conjunction with central heating and not as a primary source of heat.

In the interests of personal safety a suitable fireguard is recommended when children, the elderly and the infirm are present.

(This brochure is copyright 2020 and must not be reproduced in whole or in any part without prior written permission).

We would like to thank OER Fireplaces (01782 319350) for supplying the fire surrounds used in this brochure.
